Innovation in the Art of Teaching | Revolution in the Art of Learning

Bringing You the Ultimate SAT Experience In West Windsor-Plainsboro

*Why rely on GUESSING and having a "lucky day"
when you could approach the SAT with competence and confidence?*

PEN CRITICAL READING

There is an art to mastering the Reading Comprehension section of the SAT. In fact, preparing well for this section of the exam will prepare you equally well to tackle the tough reading challenges that you will face in college.

PEN GRAMMAR & ESSAY

We will begin with the elements of proper grammar followed by a review of the "classic" writing process. Then we will discuss how to generate ideas, vary sentence structure, and incorporate exciting vocabulary into essays that will meet and exceed the standards expected on the SAT.

PEN MATH – Please contact us if you are interested in a Math Prep Program.
